

Hapit

Privacy Policy

Hapit does not collect any personal data.

Non-personal data created using the app (i.e., habit data and app settings) is stored on Apple's servers on your private encrypted iCloud storage - if you enable the iCloud backup setting.

If you'd like to remove this data from Apple's servers, you can do so by deleting the data for Hapit under your iCloud storage settings.

If you have any questions, you can reach us at hello@hapit.app.
